Made for:

REGISTRIES

STOP THE PAPER CHASE.

Move past the days of waiting by the fax machine and fishing through your inbox to locate the EMS run report. HDE shifts EMS records into the digital world.

MAINTAIN COMPLIANCE.

Meet local, state and federal guidelines surrounding patient data by having immediate access to the EMS record. Having the complete patient care record is now a reality.

TRAUMA REGISTRY LINK.

Developed specifically for DI V5 and TraumaOne Web customers the trauma registry links directly imports HDE data into your registry.

SUPPORT

SUPPORT ACCREDITATION.

Automatically tie the EMS runsheet to the hospital EHR, important EMS data into the registry, increase feedback to EMS with automated outcome reporting on all patients.

IMPROVE OUTREACH EFFORTS.

Leverage HDE's built-in reporting package to identify trauma incidents by type and geography for more effective community outreach programs.

ESO HDE bidirectionally exchanges more than 3,000 records at over 500 hospitals daily. Don't miss your opportunity to access critical insights for improving patient care and outcomes.

Learn more about HDE at eso.com or call us today at 866-766-9471.
